August 1, 2002

Sir:

Prior to examination, please amend the above-referenced application as follows:

IN THE CLAIMS

Please amend the claims as follows:

4. (Amended) A mobile communication terminal for receiving a spread spectrum signal intermittently, comprising:

a receiver which receives said spread spectrum signal;

a demodulation unit which demodulates said spread spectrum signal received by the receiver;

a first timer started when said receiver changes from a receiving state to a suspension state;

a second timer started when said receiver changes from the
